

The Solution

Open this **only after the final vote and the reveal.** Read it out loud to the table.

WHAT REALLY HAPPENED

THE TRUTH

THE MURDERER

Berta — The Ghost — The Lady in White. The Professor told her at 23:15 that at midnight he would read her page in the Book of Endings and banish her forever — far from her husband and little Alma.

THE ACCOMPLICE

Austin — Frankenstein's Monster. He wanted the Book to destroy his own page. He cut the lights; she did the rest.

HOW

Lights out at 23:59. She glided through the hallway wall into the locked study, one icy touch froze his heart, she crushed her page into frozen snow and dropped the Book out of the window onto the balcony. He hid it in the barbecue and burned his page. At 00:03 she was back on the sofa, smiling.

HER NIGHT

23:00	Your husband says: “That hunter will regret coming here tonight.”
23:15	Kitchen doorway: the Professor whispers that at midnight he’ll read your page in the Book and banish you forever. You smile; your glass freezes and cracks. Beetlejuice may have seen it.
23:30	Dark balcony: deal with the Stitched Man. He kills the lights, you do the rest, he gets the Book.
23:45–23:59	Serving crema catalana, then on the sofa by Beetlejuice.
23:59	Lights out. You glide into the hallway and through the wall into the study.
00:00	One touch: his heart freezes. You crush your page into frozen dust and drop the Book out of the window onto the balcony.
00:02	Back on the sofa. 00:03: lights on. You smile.

HIS NIGHT

23:30	On the dark balcony you make a deal with the Lady in White: you kill the lights, she does the rest, you get the Book.
23:45–23:57	Grilling at the barbecue. You see the Martian under the study window.
23:57	Hallway. You pass your wife Medusa: “Go back to the party, darling.”
23:58–23:59	You grab the fuse box cables and drink the electricity. Blackout.
00:01	Back on the balcony in the dark. The Book drops from the study window. You hide it in the barbecue and burn your own page — “How to Unmake the Stitched Man”.
00:03	Lights on. You’re flipping sausages.
Never	You never entered the study. You never touched the Professor.

HOW YOU COULD HAVE KNOWN

Frozen wine, stopped watch → a cold killer, at 00:00.
Small frost handprint, no stitches/webs/claws → not Beetlejuice, the Creature or the Stitched Man.
Locked room + frost on the hallway wall → something with no body: the Ghost or the Banshee.
The Banshee rapped out loud in the living room for the whole blackout.
Jasmine → the Vampire's secret: his wife always smells of jasmine. Medusa wears tuberose — and a gorgon leaves stone, not frost.
The cushion went cold and empty next to Beetlejuice — the Lady in White was not on the sofa.
The ghost page crushed to frozen snow → the killer destroyed the page that could banish her.
"She smiled so sweetly. Too sweetly." + Beetlejuice's secret (23:15, kitchen, frozen glass).

...AND THE ACCOMPLICE

The fuse box → Medusa saw her husband heading there; the Creature saw a huge figure and a figure in white whispering on the balcony; the Martian heard the barbecue lid at 00:01.

Now vote “Best Liar” and “Best Performance” 🎃
